

Subject Index to Volume 26

A

A6 cells, aldosterone binding sites, species differences, R87

Acid, weak, transplacental distribution of DMO, R542

Acid-base balance
exercise effects, kidney, R102
uterine, changes during shell formation (chicken), R732

Acidemia, stimulation, ACTH, vasopressin, and heart rate responses, fetus (sheep), R344

Acidosis, lactic, exercise-induced, kidney, R102

ACTH: *see* Adrenocorticotropin

Adenosine monophosphate, cyclic
metabolic production of, during gestation, R847
modulation of prostacyclin synthesis, heart, R771

ADH: *see* Antidiuretic hormone

Adipocytes, lipogenesis, inhibitor in serum, R326

Adipose tissue
blood flow: *see* Blood flow
brown: *see* Brown fat
metabolism, meal-related changes, R711
preweaning food intake effects, body composition (baboon), R1128
responses to short days, regional differences (hamster), R1533

Adrenal gland, hemorrhagic hypotension, catecholamines and glucose in, R317

Adrenal hormone, response to hemorrhage, prior stress immobilization effects, R661

Adrenergic stimulation, stretch and, cavernous carotid artery, R1335

Adrenocorticotropin
catecholamine activity after hemorrhage, paraventricular hypothalamus, R370
central autonomic nervous system-regulating peptides, R681
central interleukin 1-elicited hyperinsulinemia, prostaglandin mediation of, R839
control by corticosteroids, R427
inhibition, renin response to hypotension, R194
responses
acidemia stimulation of, fetus (sheep), R344
repeated small hemorrhage, R118
to hemorrhage, prior stress immobilization effects, R661

Afferent nerve
mechanism, somatosensory inhibition of baroreflex bradycardia, R829
renal, activation effects, R29
visceral, inhibition of spinothalamic cells (monkey), R889

Aging
endogenous pyrogen, acute-phase response to, R189
gender effects and, thermoregulation, R700
heat exposure, dehydration and rehydration during, R1050

Air, expired, thermoregulatory control of, diving (seal), R306

Airway
dilation, benzodiazepines acting on ventral medulla, R810
upper, carbon dioxide pattern effects on ventilatory urgency (lizard), R156

Aldosterone
ANF and
experimental low-output heart failure, R917
potassium loading and, R1423
renin release and, R194
binding sites, nephron, species differences, R87

Amiloride, electrogenic sodium-hydrogen exchange, membrane vesicles, gill (crab), R924

Amines, biogenic, anoxia and, brain and kidney (carp), R10

Amino acids
excitatory, muscular contraction and, R1154
transport
brush-border membrane vesicles, intestine (eel), R506
integumental, marine bivalves, R473
intestinal brush-border membrane, lepidopteran larvae, R494

γ -Aminobutyric acid, hypothalamic receptors, stress-induced tachycardia and, R246

p-Aminohippurate, transport, urinary bladder (crab), R501

Amniotic fluid, decreasing pH in, estimation by DMO, R542

Analgesia, vagal afferent inhibition, spinothalamic cells (monkey), R889

Anesthetics, inhalation, halogenated, delivery, R668

ANF: *see* Atrial natriuretic factor

Angiotensin
control of pressor action, brain, structure-function analysis, R1551
hormonal response and, repeated small hemorrhages, R118
sodium appetite and, dehydration (cow), R1212
vasopressin effects and, oxygen uptake, sinoaortic denervation, R1

Angiotensin II
ANP, pressure natriuresis and, R1169
attenuated pressor response, third cerebral ventricle lesions, R431
central, blood pressure control during pregnancy and, R1457
infusion
ANF release during, R896
vasopressin and cortisol responses to, baroreceptor denervation effects, R1175
pressor responsiveness, pseudopregnancy and pregnancy, R866
response to ANF, experimental low-output heart failure, R917

Angiotensinogen, renin hypersecretion, vasopressin replacement effects, R1117

Anions, organic, transport, urinary bladder (crab), R501

Anorexia
interleukin 1 and, R1315
interleukin 1-induced, corticotropin-releasing factor in, R613

Anoxia
catecholamine levels and, brain and kidney (carp), R10
cerebral
energy expenditure and ion channels (turtle, rat), R1354
energy metabolism, ion homeostasis, and evoked potentials (turtle), R854
ion leakage during (turtle), R1562
tolerance, glycolytic enzymes during (turtle), R278

ANP: *see* Atrial natriuretic peptide

Antidiuresis, head-up tilt and, awake state, R337

Antidiuretic hormone: *see also* Vasopressin
apical membrane responses to, bladder (toad), R998
osmoregulatory alterations of pregnancy, hemodynamic factors in, R909
vasopressin effects and, oxygen uptake, sinoaortic denervation, R1

Antinatriuresis, head-up tilt and, awake state, R337

Aortic depressor nerve, glutamate coinjection, response to ANF, R405

Aortocaval fistula, ANP release, hypophysectomy and, R522

Apnea, timing control, periodic breathing, R653

Appetite: *see* Feeding

Area postrema, lesion, response to palatability after, R1075

Asphyxia, fetal, β -adrenergic block effects on lung liquid secretion (sheep), R705

Atrial natriuretic factor
aldosterone and renin inhibition by, potassium loading and, R1423
depressor response to, glutamate coinjection effects, R405
hemodynamic effects, congestive heart failure, R1481
infusion, fetal responses to (lamb), R580
inhibition, renin response to hypotension, R194
release
atrial granularity and, diabetes, R932
during isoproterenol and angiotensin II infusion, R896
renal responses
chronic caval constriction and, R1057
cirrhosis and, R1068
experimental low-output heart failure, R917

Atrial natriuretic peptide
binding sites, lack of vasopressin effects, brain, R168
blood flow and, cerebrum and choroid plexus, R1365
circulating blood volume and, R127
dependent effect of drinking volume on, R762

- Atrial natriuretic peptide (*continued*)
 endogenous, congestive heart failure and, R641
 fluid and protein shift and, transcapillary, R174
 hemodynamic actions of, renal hypertension, R365
 plasma levels
 propranolol and pindolol effects, rest and exercise, R259
 vagotomy effects, during hemorrhage, R1393
 pressure natriuresis and, renin-angiotensin system interaction, R1169
 rapid atrial pacing and, cardiac-denervated dog, R162
 release, hypophysectomy and, R522
 response to hypervolemia, papillary necrosis, R422
- Atriopeptin
 blood flow and, cerebrum and choroid plexus, R1365
 fluid and protein shift and, transcapillary, R174
 immunoreactive release, plasma (fish), R939
- Atropine, cutaneous vasodilation induced by, esophageal temperature during exercise and, R1089
- Autonomic nervous system
 function, *m*-chlorophenylpiperazine effects, R1441
 modulation of response to norepinephrine, fetus (lamb), R574
- Autoradiography, atrial natriuretic peptide binding sites, lack of vasopressin effects, brain, R168
- AV3V lesions: *see* Cerebral ventricles, anteroventral third,
- Awake state
 baroreceptor denervation effects, vasopressin and cortisol responses to angiotensin II infusion, R1175
 baroreflex sensitivity, volume expansion effects (monkey), R595
 calcitonin gene-related peptide, cardiovascular effects, R726
 head-up tilt, sympathetic renal nerve activity during, R337
 plasma catecholamines and renal sympathetic nerve activity, during eating, R1034
 tissue pressure, head-out water immersion, R358
 volume expansion, renal nerve role in, awake state (lamb), R1519

B

Behavior

- ambient temperature effects, food costs and, R1328
 appetite, corticotropin-releasing factor in, R613
 cerebral oxidative metabolism, during perinatal period, R1251
 sexual, *m*-chlorophenylpiperazine effects, R1441
 sleep and fever induced by interleukin 1, corticotropin-releasing factor effects, R528
 Benzodiazepines, airway dilation and, ventral surface of medulla, R810
 Bicarbonate ions, transport, dynamic changes in plasma membrane *a.a* and (turtle), R973

- Biopsy, muscle, after exercise, R451
 Bivalve integument, marine, amino acid transport, R473
 Bladder: *see* Urinary bladder
- Blockade
 α -adrenergic, species differences, R1110
 β -adrenergic, lung liquid secretion and, during fetal asphyxia (sheep), R705
 calcium channel
 atriopeptin and plasma volume, R174
 hemorrhagic shock, R1012
 synaptic, thermosensitive neurons in diencephalon, R65
- Blood
 embryonic, decreasing pH, estimation by DMO, R542
 volume: *see* Volume
- Blood-brain barrier, sodium appetite and thirst, dehydration (cow), R1212
- Blood flow: *see also* Circulation
 adipose tissue, meal-related changes, R711
 cerebral
 atriopeptin effects, R1365
 during perinatal period (lamb), R1251
 facial nerve stimulation effects, R517
 hypoxia and hypocapnia effects (duck), R127
 choroid plexus, atriopeptin effects, R1365
 mesenteric, PAF in, R872
 regional, calcium-channel blockade in hemorrhagic shock, R1012
 uterine, fetal asphyxia and (sheep), R705
- Blood pressure: *see also* Pressure
 after hemorrhage, newborn (lamb), R647
 arterial
 neural oscillations of, R804
 response to stress, μ -opioid peptide modulation of, R901
 stress immobilization effects, R661
 baroreceptor denervation effects, vasopressin and cortisol responses to angiotensin II infusion, R1175
 central effects of somatostatin, R588
 central nervous system lesions and, R80
 control
 during pregnancy, central angiotensin II in, R1457
 rostral ventromedial medulla, R635
 fastigial nucleus, axons of passage and, R1436
 24-h recordings, high- and low-salt diets, R1225
 mean arterial, volume expansion effects, awake state (monkey), R595
 stress-induced tachycardia, hypothalamic GABA receptors and, R246
 vasopressin-mediated recovery, synthetic capsaicin effects, R1429
- BN 52021, ischemia-reperfusion, mesenteric, R872
- Body
 composition
 CRF effects, sex dependency, R1417
 orchidectomy and, training effects, R550
 preweaning food intake effects (bacon), R1128
 fluid volume, arterial chemoreceptor and reflex control of, R1282
 magnesium and manganese measurement, R1136
 weight: *see* Weight
- Bombesin, inhibition of feeding, R1215

- Bradycardia
 fasting-induced, heart rate spectral analysis of (cow), R1303
 vagal baroreflex, somatosensory inhibition of, R829
- Bradykinin, afferent nerve activation, renal and mesenteric, R29
- Brain
 angiotensin control, pressor action, structure-function analysis, R1551
 anoxic
 biochemical comparison (rat, turtle), R1083
 ion leakage (turtle), R1562
 ANP binding sites, lack of vasopressin effects, R168
 catecholamine levels, anoxia effects (carp), R10
 energy metabolism
 level of satiety, R1322
 parabiosis and, R224
 injury, energy metabolism, ion homeostasis, and evoked potentials (turtle), R854
 ion channel density, energy expenditure and (turtle, rat), R1354
 oxidative metabolism, during perinatal period (lamb), R1251
 plasma ANP and, vagotomy effects, during hemorrhage, R1393
 redox balance, hypoxia and hypocapnia effects (duck), R132
 thermosensitive neurons in diencephalon, R57
 diencephalon, synaptic blockade effects, R65
- Brevetoxin, energy expenditure and ion channels, brain (turtle, rat), R1354
- Brown fat
 DBP binding, during hibernation and arousal (squirrel), R536
 glucose uptake, fasting and cold effects, R96
 intercapsular, sympathetic nerve activity, 2-deoxy-D-glucose effects, R1377, R1386
 lipoprotein lipase, short photoperiod and cold activation of (hamster), R1123
 norepinephrine and denervation effects (hamster), R396
 responses to short days, regional differences (hamster), R1533
 surgical removal of, compensation by other depots, R253
 thermogenesis, CRF effects, sex dependency, R1417
 uncoupling protein and GDP binding, cold-induced changes, R292
- Brush-border membrane
 electrogenic sodium-hydrogen transport, hepatopancreas, kinetic analysis (prawn), R484
 intestinal, amino acid transport, lepidopteran larvae, R494
 renal, inorganic sulfate excretion (teleost), R511
- Brush-border membrane vesicles
 intestinal
 amino acid transport (eel), R506
 sodium-dependent L-glutamate transport (eel), R180

C

- Cachexia, interleukin 1 and, R1315

- Calcification, shell formation, uterine fluid composition during (chicken), R732
- Calcitonin gene-related peptide, cardiovascular effects, awake state, R726
- Calcium
bone, simulated weightlessness effects, R1103
fluxes, calcitropic actions of prolactin and (eel), R74
mobilization of, embryo (alligator), R1541
sarcoplasmic reticulum, cardiac force and (trout), R599
- Calcium channels
blockade: *see* Blockade
voltage-dependent, brain biochemistry, species differences (rat, turtle), R1083
- cAMP: *see* Adenosine monophosphate, cyclic
- Capacitance
pressure-volume responses, estrogen (guinea pig), R1205
vascular, in systemic circulation, lung inflation effects, R1004
- Capsaicin
neuron response to circulating CCK and, hindbrain, R1162
synthetic, vasopressin-mediated blood pressure recovery and, R1429
- Captopril
hemodynamics of ANP and, renal hypertension, R365
sodium appetite and, dehydration (cow), R1212
- Carbon dioxide
pattern, upper airway, effects on ventilatory urgency (lizard), R156
production, doubly labeled water method (sheep), R1488
- Cardiac output
calcitonin gene-related peptide effects, awake state, R726
measurement, R439
sinoarctic denervation and, vasopressin effects, R1
- Cardiorespiratory interaction, chemoreceptor effects, sympathetic activity, R1027
- Cardiovascular regulation, RVLM neurons, CVLM inhibition of, R265
- Cardiovascular response
ANF infusion, fetus (lamb), R580
feeding, newborn (lamb), R568
norepinephrine, modulation by autonomic nervous system, fetus (lamb), R574
- Carotid artery, cavernous, reactivity to stretch and adrenergic stimulation, R1335
- Carotid sinus, prostaglandins in, baroreflex enhancement, R445
- Castration: *see* Orchidectomy
- Catecholamines
activity, after hemorrhage, paraventricular hypothalamus, R370
anoxia effects, brain and kidney (carp), R10
maternofetal potential difference (pig), R37
plasma
eating and, renal sympathetic nerve activity and, R1034
hemorrhagic hypotension and, liver, R317
- Cations, transport, urinary bladder (crab), R501
- Caudal ventrolateral medulla, chemical stimulation of, neurons in rostral VLM and, R265
- Cavernous nerve, function, *m*-chlorophenylpiperazine effects, R1441
- CCK-8: *see* Cholecystokinin octapeptide
- Central nervous system
adrenergic control, vasopressin release, sex differences, R1040
angiotensin, blood pressure control during pregnancy and, R1457
somatostatin and, R588
- Cerebral ventricles
anteroventral third, lesions, blood pressure and, R80
third
CCK-8 effects on food intake, R946
lesion, attenuated pressor response, R431
- Cerebrum, blood flow: *see* Blood flow
- C-fibers, mechanism, somatosensory inhibition of baroreflex bradycardia, R829
- cGMP: *see* Guanosine monophosphate, cyclic
- Chloralose, spinal cord transection, sympathetic discharge and, R1506
- Chloride, active transport, posterior midgut (tobacco hornworm), R752
- Chloride ions, dynamic changes in plasma membrane area and (turtle), R973
- Chlorine ions, L-glutamate transport and, intestinal brush-border membrane vesicles (eel), R180
- Chlorisondamine, norepinephrine release and, renal sympathetic nerve activity, R229
- m*-Chlorophenylpiperazine, penile and bladder function, R1441
- Cholecystokinin
circulating, neuron response to, capsaicin attenuation of, hindbrain, R1162
endogenous, food intake and gastric emptying with, fasting, R1462
cholecystokinin antagonist, food intake stimulation, R1512
cholecystokinin octapeptide, somatostatin-14 interaction, feeding control, R15
cholecystokinin octapeptide analogues, food intake and, R946
- Choroid plexus, blood flow: *see* Blood flow
- Circulation: *see also* Microcirculation
neural control, phenylephrine infusion and, R1147
systemic, vascular capacitance in, lung inflation effects, R1004
- Cirrhosis, ANF, renal responses and, R1068
- Citrate synthase, brain biochemistry, species differences (rat, turtle), R1083
- Coagulation factor, acute-phase behavior, R49
- Cold
acclimation, adaptation to fasting and, chick (penguin), R744
activation, brown fat lipoprotein lipase and (hamster), R1123
changes induced by, uncoupling protein and GDP binding, brown fat, R292
exposure, fasting and, glucose uptake, R96
- Comparative physiology, renal, membrane dynamics in proximal tubules (snake), R982
- Compartmentalization, body fluid, osmoregulation and, dehydrated heat exposure (pigeon), R377
- Compliance, pressure-volume responses, estrogen (guinea pig), R1205
- Converting-enzyme inhibitor, hemodynamic actions of ANP and, renal hypertension, R365
- Copulatory stimuli, ovarian development and (snake), R1548
- Coronary occlusion, baroreflex inhibition during, prostaglandins and, R216
- Corticosteroids
integral feeding effects, control of ACTH, R427
response, repeated small hemorrhage, R118
- Corticotropin, control by steroids, R427
- Corticotropin-releasing factor
anorexia, induced by interleukin 1, R613
attenuation, interleukin 1-induced sleep and fever, R528
energy balance and, sex dependency, R1417
- Cortisol
calcitropic actions of prolactin and (eel), R74
response, repeated small hemorrhage, R118
response to baroreceptor denervation, angiotensin II infusion effects, R1175
vasopressin response and, hypertonic saline, fetus (sheep), R861
- CRF: *see* Corticotropin-releasing factor
- Cryobiology, freezing-induced changes, heart rate (frog), R1046
- CVLM: *see* Caudal ventrolateral medulla
- Cyclooxygenase, carotid sinus, baroreflex and, R445
- Cytochrome-c-oxidase, brown fat, norepinephrine and denervation effects (hamster), R396
- Cytochrome oxidase
activity, hibernation and arousal (squirrel), R536
surgical removal of brown fat, compensation by other depots, R253
- D**
- Dehydration
platelet vasopressin receptors, homologous regulation of, R1400
responses, heat exposure, aging and, R1050
sodium appetite and thirst (cow), R1212
thermoregulatory sweating, exercise in the heat, R311
- Denervation, norepinephrine and, brown fat (hamster), R396
- Deoxycorticosterone acetate, hypertension, urinary clearance of lysine vasopressin and (pig), R1467
- 2-Deoxyglucose
brain biochemistry, species differences (rat, turtle), R1083
uptake, fasting and cold effects, R96
- 2-Deoxy-D-glucose
injection to lateral hypothalamus, suppression of sympathetic activity, R1386

- 2-Deoxy-D-glucose (*continued*)
 suprachiasmatic nucleus activation, during hibernation cycle (squirrel), R605
 sympathetic nerve activity and, intercapsular brown fat, R1377
 Depolarization, anoxic, energy metabolism, ion homeostasis, and evoked potentials (turtle), R854
 Detrusor muscle, spontaneous contractions, bladder, R781
 Development: *see also* Growth
 fetal, vasopressin response to saline, cortisol effects (sheep), R861
 fluid secretion and microvillar structure, Malpighian tubules (mosquito), R1096
 Dexamethasone, inorganic sulfate excretion relations, renal (teleost), R511
 Diabetes, streptozotocin-induced, renal response to volume expansion and, R672
 Diabetes mellitus, atrial granularity, ANF release and, R932
 Diencephalon
 thermosensitive neurons in localization, R57
 synaptic blockade effects, R65
 5,5-Dimethylloxazolidine-2,4-dione, transplacental distribution of, estimation of decreasing pH, embryos and fluids, R542
 3,3'-Dipropylthiadicarboxycyanine iodide, electrogenic sodium-hydrogen exchange, membrane vesicles, gill (crab), R924
 Diuresis
 diabetes, renal response to volume expansion and, R672
 fluid secretion and microvillar structure, Malpighian tubules (mosquito), R1096
 Diving, expired air temperature, thermoregulatory control of (seal), R306
 DMO: *see* 5,5-Dimethylloxazolidine-2,4-dione
 DOCA: *see* Deoxycorticosterone acetate
 Dopamine, anoxia effects, brain and kidney (carp), R10
 Dorsal raphe nucleus, single-unit response, serotonergic neurons, R1345
 Drinking
 rehydration, during heat exposure, aging effects, R1050
 sodium appetite and, dehydration (cow), R1212
 volume, vasopressin and ANP, R762

E

- Edema
 ANF effects
 chronic caval constriction and, R1057
 cirrhosis and, R1068
 Electroencephalography, sleep and fever induced by interleukin 1, corticotropin-releasing factor effects, R528
 Electrolytes, distribution, calcium-channel blockade in hemorrhagic shock, R1012
 Electrophysiology, micturition reflexes, R410
 Embryo
 calcium, phosphorus, and magnesium mobilization (alligator), R1541
 fluids and, decreasing pH of, R542

- uterine fluid composition, during shell formation (chicken), R732
 Endocrine response, ANF infusion, fetus (lamb), R580
 Endotoxemia, hepatocytes of, protein phosphorylation in, R1232
 Energy
 balance
 ambient temperature effects, R1328
 CRF effects, sex dependency, R1417
 exercise training effects, orchidectomy, R550
 expenditure
 insulin-induced hyperphagia and, R717
 ion channel density relations, brain (turtle, rat), R1354
 metabolism
 anoxic brain (turtle), R854
 brain, level of satiety, R1322
 hypothalamic, parabiosis and, R224
 sparing, adaptation to cold and fasting, chick (penguin), R744
 stores, myocardial, sepsis and endotoxin shock effects, R1265
 Environment, cold, body weight and cost of foraging, R952
 Enzymes, plasma, response to hemorrhage, stress immobilization effects, R661
 Epinephrine
 anoxia effects, brain and kidney (carp), R10
 lung liquid secretion during, β -adrenergic block effects, fetal asphyxia (sheep), R705
 plasma
 eating and, renal sympathetic nerve activity and, R1034
 response to hemorrhage, stress immobilization effects, R661
 Epithelia
 sodium-coupled active transport mechanisms, energetics of, invertebrate, R461
 transport, amino acids, marine bivalves, R473
 Erythrocytes
 infusion, exercise in the heat, R311
 volume, prolonged hyperinsulinemia effects (sheep), R1199
 Erythropoiesis, prolonged hyperinsulinemia effects, fetus (sheep), R1199
 Esophagus, temperature, during exercise, cutaneous vasodilation and, R1089
 Estradiol, ovariectomy and, unity of female circadian rhythms, R1241
 Estrogen, treatment, vascular pressure-volume relations (guinea pig), R1205
 Exercise
 ANP plasma levels, propranolol and pin-dolol effects, R259
 increased interleukin 1β after, skeletal muscle, R451
 lactic acidosis induced by, kidney, R102
 muscular contraction, ventrolateral medullary neurons and, R1154
 prolonged, puberty and luteinizing hormone secretion, female, R1359
 training, energy balance and, orchidectomy, R550

F

- Facial nerve, stimulation, regional blood flow and glucose use with, cerebral, R517

- Fastigial nucleus, pressor response, axons of passage and, R1436
 Fasting
 adaptation to, nonshivering thermogenesis and, chick (penguin), R744
 bradycardia induced by, heart rate spectral analysis of (cow), R1303
 cold exposure and, glucose uptake, R96
 endogenous CCK effects, feeding and gastric emptying, R1462
 Fat pad, responses to short days, regional differences (hamster), R1533
 Fatty acids, oxidation, obesity effects, liver, R822
 Feedback, corticosteroid, control of ACTH, R427
 Feeding
 cardiovascular responses during, newborn (lamb), R568
 control
 CCK-8 and somatostatin-14 interaction, R15
 energy metabolism in brain and, R1322
 hypothalamic energy factor and, R224
 seasonal timer (hamster), R142
 diet-induced thermogenesis, hyperphagia induced by insulin with, R717
 food costs, ambient temperature and, R1328
 food intake
 appetite stimulation by L364718, R1512
 body weight and cost of foraging, R952
 CCK-8 effects, R946
 preweaning, body composition and (baboon), R1128
 food selection, area postrema lesion and, R1075
 gastric emptying and, endogenous CCK effects, fasting, R1462
 high- and low-salt diets, 24-h blood pressure recordings in, R1225
 inhibition of, bombesin and, R1219
 interleukin 1-induced anorexia, corticotropin-releasing factor in, R613
 low-sodium diet, DOCA hypertension (pig), R1467
 meal-related changes, adipose tissue blood flow, R711
 metabolism, hepatic portal glucose concentration effects, R1474
 neuron response to CCK, hindbrain, R1162
 nutritional energetics, orchidectomy, training effects, R550
 plasma catecholamines, renal sympathetic nerve activity and, R1034
 prolonged exercise effects, luteinizing hormone secretion, female, R1359
 reduction, interleukin 1 and, R1315
 stimulation of, neuropeptide Y and (sheep), R383
 Fetus: *see also* Placenta; Pregnancy
 asphyxia, β -adrenergic block effects on lung liquid secretion (sheep), R705
 bladder contractions, micturition and (sheep), R1526
 cardiovascular response to norepinephrine, modulation by autonomic nervous system (lamb), R574
 hormonal and heart rate responses, acidemia (sheep), R344
 maternofetal potential difference (pig), R37

- prolonged hyperinsulinemia effects, erythropoiesis (sheep), R1199
- renin secretion, neurally released norepinephrine and (sheep), R765
- response to ANF infusion (lamb), R580
- vasopressin response to saline, cortisol effects (sheep), R861
- Fever**
- central interleukin 1-elicited hyperinsulinemia, prostaglandin mediation of, R839
- endogenous pyrogen, acute-phase response to, aging effects, R189
- interleukin 1-induced, corticotropin-releasing factor effects, R528
- laboratory and free-ranging animals (chuckwallas), R150
- Fibrinogen, acute-phase behavior, R49
- Fibronectin, synthesis, hepatic, contribution of, R1406
- Filtration**
- capillary, coefficient, ANP effects, R127
- glomerular
- endogenous ANP role in congestive heart failure, R641
- exercise effects, R102
- Fluid**
- amniotic: *see* Amniotic fluid
- response, ANF infusion, fetus (lamb), R580
- secretion, stimulation of, Malpighian tubules (beetle), R1190
- transcapillary
- migration, congestive heart failure, R1481
- shift, head-out water immersion, R358
- shift, nifedipine and atriopeptin effects, R174
- Fluorometry, fiber-optic, cerebral oxygenation (duck), R127
- Forskolin, prostacyclin synthesis induced by, modulation by cAMP, heart, R771
- Freezing, tolerance, heart rate and (frog), R1046
- Fructose 2,6-diphosphate, depression, anoxia survival strategy (turtle), R278
- G**
- GABA: γ -Aminobutyric acid
- Ganglia, parasympathetic, bladder nerves, micturition reflexes, R410
- Gastric emptying, feeding and, endogenous CCK effects, fasting, R1462
- Gastrin-releasing peptide, inhibition of feeding, R1219
- Gastrointestinal physiology, amino acid transport, intestinal brush-border membrane vesicles (eel), R506
- GDP: *see* Guanosine diphosphate
- Gender, aging and, thermoregulation, R700
- Gestation, osmoregulation alterations of, hemodynamic factors in, R909
- Glucagon**
- central interleukin 1-elicited hyperinsulinemia, prostaglandin mediation of, R839
- food intake, hepatic glucose and, R1474
- protein phosphorylation, hepatic, R1232
- Glucocorticoids, inorganic sulfate excretion relations, renal (teleost), R511
- Glucoprivation**
- sympathetic nerve activity and intercapsular brown fat, R1377
- lateral hypothalamic injection of 2-deoxy-D-glucose and, R1386
- Glucoregulation, single-unit response, serotonergic neurons, R1345
- Glucose**
- concentration
- hemorrhagic hypotension and, liver, R317
- hepatic portal, feeding and metabolism effects, R1474
- metabolism, restricted growth and, pregnancy (sheep), R350
- paraventricular nucleus modulation, freely moving lean rats, R1370
- serotonergic neuron response to, R1345
- uptake
- fasting and cold effects, R96
- peripheral tissue, TNF effects, R1182
- utilization
- facial nerve stimulation effects, R517
- intercapsular brown fat, R1377
- Glutamate**
- coinjection, depressor response to ANF and, R405
- RVLN neurons, CVLM inhibition of, R265
- L-Glutamate, sodium-dependent transport, intestinal brush-border membrane vesicles (eel), R180
- Glycolysis**
- control of, anoxia (turtle), R278
- control of phosphofructokinase, model, R878
- Glycolytic enzymes, regulation, during anoxia (turtle), R278
- Growth: *see also* Development**
- placental, restricted, glucose metabolism and, pregnancy (sheep), R350
- prolonged exercise effects, luteinizing hormone secretion, female, R1359
- protein turnover, skeletal muscle, suckling, R1141
- Guanosine diphosphate**
- binding
- aging and gender effects, R700
- brown fat, during hibernation and arousal (squirrel), R536
- cold-induced changes, brown fat, R292
- surgical removal of brown fat, compensation by other depots, R253
- Guanosine monophosphate, cyclic, metabolic production of, during gestation, R847
- Gustatory response, consistent aversion, area postrema lesion and, R1075
- H**

- exchange, nasal, diving (seal), R306
- exercise and, thermoregulatory sweating, R311
- exposure
- dehydrated, osmoregulation and (pigeon), R377
- dehydration and rehydration during, aging and, R1050
- Hemorrhage**
- adrenal hormone response to, prior stress immobilization effects, R661
- blood volume redistribution after, newborn (lamb), R647
- brain and plasma ANP during, vagotomy effects, R1393
- catecholamine activity after, paraventricular nucleus, R370
- constant-pressure and constant volume (trout), R1307
- norepinephrine and glucose during, liver, R317
- repeated small, hormonal response to, R118
- Hepatobiliary function, sulfobromophthalen infusion, R456
- Hepatocellular function, measurement, R439
- Hepatocytes, septic and endotoxemic, protein phosphorylation in, R1232
- Hepatopancreas, electrogenic sodium-hydrogen transport, kinetic analysis (prawn), R484
- Hexokinase, brain biochemistry, species differences (rat, turtle), R1083

- Hibernation**
arousal and, brown fat GDP binding during (squirrel), R536
suprachiasmatic nucleus, phase-dependent activation of (squirrel), R605
- Hindbrain, neuron response to circulating CCK, capsacin attenuation of,** R1162
- HMG-CoA reductase: see** Hydroxymethylglutaryl-CoA reductase
- Hoarding, food, body weight and cost of foraging,** R952
- Hormonal responses**
acidemia, fetus (sheep), R344
repeated small hemorrhages, angiotensin and vasopressin role in, R118
- Hydrochloric acid, hormonal and heart rate responses, fetus (sheep),** R344
- Hydrogen ions, transport, dynamic changes in plasma membrane area and (turtle),** R973
- 6-Hydroxydopamine, pressor response to feeding and, newborn (lamb),** R568
- Hydroxymethylglutaryl-CoA reductase, physiological role, egg production,** R618
- 5-Hydroxytryptamine, afferent nerve activation, renal and mesenteric,** R29
- Hyperglycemia**
hemorrhagic hypotension and, liver, R317
single-unit response, serotonergic neurons, R1345
- Hyperinsulinemia**
central interleukin 1-elicited, prostaglandin mediation of, R839
energy expenditure, diet-induced thermogenesis and, R717
prolonged, erythropoiesis and, fetus (sheep), R1199
- Hyperkalemia, aldosterone and renin inhibition, ANF, R1423**
- Hypertension**
afferent nerve activation, renal and mesenteric, R29
attenuated pressor response, third cerebral ventricle lesions, R431
DOCA, urinary clearance of lysine vasopressin and (pig), R1467
high- and low-salt diets, 24-h blood pressure recordings in, R1225
primary systemic, arterial chemoreceptor and reflex control of, R1282
prostaglandins in, reduced uteroplacental perfusion pressure, R1558
renal, hemodynamic actions of ANP, converting-enzyme inhibitor effects, R365
renin-angiotensin system role in, during uteroplacental perfusion pressure, R204
- Hypervolemia**
natriuretic response, papillary necrosis and, R422
thermoregulatory sweating, exercise in the heat, R311
- Hypocapnia, redox balance and, brain (duck),** R132
- Hypoglycemia, single-unit response, serotonergic neurons, R1345**
- Hypophysectomy, ANF release in, R522**
- Hypotension**
hemorrhagic, catecholamines and glucose in, liver, R317
mesenteric ischemia-reperfusion, PAF in, R872
renin response to, inhibition by ANF, R194
- Hypothalamus**
attenuated pressor response, third cerebral ventricle lesions, R431
central interleukin 1-elicited hyperinsulinemia, prostaglandin mediation of, R839
energy metabolism, parabiosis and, R224
lesions, pressor response after, R80
neural thermosensitivity in, ouabain effects, R21
plasma ANP and, vagotomy effects, during hemorrhage, R1393
posterior, muscimol injection into, stress-induced tachycardia and, R246
preoptic anterior, thermal response to norepinephrine, R816
thermosensitive neurons in localization, R57
synaptic blockade effects, R65
ventrolateral medulla, neurons, muscular contraction and, R1154
ventromedial nucleus, injection of 2-deoxy-D-glucose, sympathetic activity and, R1386
- Hypovolemia, constant-pressure and constant volume, response to (trout),** R1307
- Hypoxia**
chemical control of ventilation, temperature effects (iguana), R1258
fetal, β -adrenergic block effects on lung liquid secretion (sheep), R705
high-altitude, arterial chemoreceptor and reflex control of, R1282
redox balance and, brain (duck), R132
- I**
- Immersion, head-out, tissue pressure in, awake state,** R358
- Immunoglobulin G, anti-atrial natriuretic peptide, congestive heart failure and, R641**
- Immunoneuroendocrinology, interleukin 1-induced anorexia, corticotropin-releasing factor in, R613**
- Indolamines, catecholamine activity after hemorrhage, paraventricular hypothalamus, R370**
- Indomethacin, thermal response to, preoptic anterior hypothalamus, R816**
- Infant: see also** Neonate; Newborn
diabetic mother, prolonged hyperinsulinemia effects (sheep), R1199
diet, body composition and (baboon), R1128
- Infarction**
myocardial
ANF and nitroglycerin effects, R1481
endogenous ANP role in, R641
- Inhalation, halogenated anesthetics, simple delivery of, R668**
- Insulin**
central interleukin 1-elicited hyperinsulinemia, prostaglandin mediation of, R839
food intake, hepatic glucose and, R1474
glucose uptake and, fasting and cold effects, R96
hyperphagia induced by, energy expenditure and diet-induced thermogenesis with, R717
paraventricular nucleus modulation, freely moving lean rats, R1370
resistance, cold-induced changes in brown fat, R292
serotonergic neuron response to, R1345
- Interleukin 1**
acute-phase behavior, R49
anorexia induced by, corticotropin-releasing factor in, R613
anorexic effects, R1315
central, hyperinsulinemia elicited by, prostaglandin mediation of, R839
sleep and fever induced by, corticotropin-releasing factor effects, R528
- Interleukin 1β , increased, after exercise, skeletal muscle, R451**
- Intestine**
brush-border membrane vesicle amino acid transport (eel), R506
sodium-dependent L-glutamate transport (eel), R180
- Ion channels, density, energy expenditure relations, brain (turtle, rat), R1354**
- Ions**
homeostasis, anoxic brain (turtle), R854
leakage, brain anoxia (turtle), R1562
- Isoproterenol**
infusion, ANF release during, R896
prostacyclin synthesis induced by, modulation by cAMP, heart, R771
- J**
- Jet lag, simulated, circadian rhythms and patterns of performance (monkey),** R796
- K**
- Kainic acid**
fastigial nucleus pressor response and, R1436
hypertensive response and, after AV3V lesions, R80
- Ketogenesis, decreased, liver, obesity and, R822**
- Kidney**
aldosterone binding sites, species differences, R87
catecholamine levels, anoxia effects (carp), R10
clearance, rapid atrial pacing effects, cardiac-denervated dogs, R162
contraction rhythms, calyceal and pelvic, R788
decapsulation, effects on natriuresis, R44
excretory function, arterial chemoreceptor and reflex control of, R1282
function, volume expansion, renal nerves in, newborn, awake state (lamb), R1519
inorganic sulfate excretion, adaptability (teleost), R511
lactic acidosis, exercise-induced, R102
papilla: see Kidney papilla
plasma flow, DOCA hypertension (pig), R1467
potassium transport, adaptations, R989
renin secretion, neuronally released norepinephrine and (sheep), R765
responses to ANF
chronic caval constriction and, R1057
cirrhosis and, R1068

experimental low-output heart failure, R917
response to volume expansion, streptozotocin-induced diabetes and, R672
tubules: *see* Kidney tubules
Kidney papilla, necrosis, natriuretic response to hypervolemia, R422
Kidney tubules
dissecting, aldosterone binding sites, species differences, R87
distal, potassium transport, adaptations, R989
proximal, membrane dynamics (snake), R982

L

L 364718, food intake stimulation, R1512
Lactate dehydrogenase, brain biochemistry, species differences (rat, turtle), R1083
Larvae, lepidopteran, amino acid transport, R494
Light, bright, temperature rhythm and, R136
Lipectomy, removal of brown fat, compensation by other depots, R253
Lipogenesis
brown fat GDP binding and, hibernation and arousal (squirrel), R536
inhibitor of, obesity and, R326
responses to short days, regional differences (hamster), R1533
Lipoprotein lipase
brown fat
norepinephrine and denervation effects (hamster), R396
short photoperiod and cold activation of (hamster), R1123
responses to short days, regional differences (hamster), R1533
Lipostatic factor, putative, site of action, R224
Lithium, clearance, pregnancy, R909
Litorin, inhibition of feeding, R1219
Liver
decreased ketogenesis and, obesity effects, R822
fibronectin synthesis, contribution of, R1406
function, assessment by allopurinol kinetics, models, R237
hemorrhagic hypotension, catecholamines and glucose in, R317
portal glucose concentration, food intake and metabolism with, R1474
Loading, intravenous test, liver function, R237
Lung
denervation, vascular capacitance in systemic circulation and, R1004
inflation reflex, vascular capacitance in systemic circulation and, R1004
liquid secretion, β -adrenergic blockade effects, during fetal asphyxia (sheep), R705
Luteinizing hormone, secretion, prolonged exercise effects, female, R1359

M

Magnesium
mobilization of, embryo (alligator), R1541
total body, measurement of, R1136

Malpighian tubules
electrophysiological and cable parameters (beetle), R1190
fluid secretion and microvillar ultrastructure (mosquito), R1096
membrane dynamics (insect), R967
Manganese, total body, measurement of, R1136
Mating, fall, ovarian development and (snake), R1548
Mayer waves, generation of, role of ventral surface of medulla in, R804
MCP: *see* *m*-Chlorophenylpiperazine
Melanocyte-stimulating hormone, central autonomic nervous system-regulating peptides, R681
 α -Melanocyte-stimulating hormone, acute-phase response, endogenous pyrogen, R189
Membrane
apical, responses to ADH, bladder (toad), R998
dynamics
ion-transporting epithelia, introduction, R965
Malpighian tubules, R967
proximal tubules (snake), R982
plasma
calcitropic actions of prolactin and (eel), R74
dynamic changes in, ion transport in bladder (turtle), R973
transport, sodium-coupled, invertebrate epithelia, R461
Membrane vesicles, gill, electrogenic sodium-proton exchange (crab), R924
Mesenteric nerves, sensory, activation of, R29
Metabolic activity, suprachiasmatic nucleus activation, during hibernation cycle (squirrel), R605
Metabolic control
feeding, glucose concentration and, R1474
phosphofructokinase, model, R878
Metabolic rate, depression, anoxia survival strategy (turtle), R278
Metabolites, circulating, brown fat GDP binding and, during hibernation and arousal (squirrel), R536
Methane, production, doubly labeled water method (sheep), R1488
Mevinolin, inhibition of HMG-CoA reductase, *Schistosoma mansoni*, R618
Microelectrode, chloride-selective, posterior midgut (tobacco hornworm), R752
Microprocessor, analysis based on, sympathetic nerve traffic, R958
Microspheres
atriopectin effects, cerebrum and choroid plexus blood flow, R1365
radiolabeled
meal-related changes in adipose tissue blood flow, R711
pressor response to feeding, newborn (lamb), R568
Microvilli
fluid secretion, Malpighian tubules (mosquito), R1096
Malpighian tubules, membrane dynamics (insect), R967
Micturition
bladder contractions and, fetus (sheep), R1526

m-chlorophenylpiperazine effects, R1441
Midgut
lepidopteran, amino acid transport, R494
posterior, active chloride transport (tobacco hornworm), R752
Minerals, mobilization, embryo (alligator), R1541
Models
allopurinol kinetics, assessment of liver function, R237
phosphofructokinase, metabolic control of, R878
selenite metabolism, R556
Van der Pol, phase resetting of respiratory rhythm, R271
Motility, gastric, gastrin peptide effects (sheep), R388
MSH: *see* Melanocyte-stimulating hormone
Muscimol, injection, posterior hypothalamus, stress-induced tachycardia and, R246
Muscle
atrophy, protein metabolism during, R300
contraction, pressor reflex to, ventrolateral medullary neurons and, R1154
Muscle, skeletal
glucose uptake, fasting and cold effects, R96
increased interleukin 1β , after exercise, R451
protein turnover in, suckling, R1141
Muscle, smooth
airway
benzodiazepines acting on ventral medulla, R810
tone, nonrespiratory oscillations of, R804
contraction rhythms, renal calyceal and pelvic, R788
mechanics, spontaneous contractions, bladder, R781
vascular, immunoreactive atriopeptin in plasma (fish), R939
Myocardium
force, sarcoplasmic reticulum and (trout), R599
function, sepsis and endotoxin shock effects, R1265
infarction: *see* Infarction
 β -Myosin, heavy-chain mRNA, unweighted soleus muscle, R300

N

Natriuresis
diabetes, renal response to volume expansion and, R672
pressure, ANP and, R1169
renal decapsulation effects, R44
response to hypervolemia, papillary necrosis, R422
vasopressin clearance, DOCA hypertension (pig), R1467
Neonate: *see also* Infant; Newborn
pressor responses, feeding (lamb), R568
Nephron, aldosterone binding sites, species differences, R87
Nerve traffic, analysis, microprocessor-based, R958
Neurohypophyseal hormones, total translation, R109
Neurohypophysis, vasopressin and oxytocin, total translation of, R109

Neurons

- magnocellular, total translation of vasopressin and oxytocin, R109
- nonadrenergic, nucleus tractus solitarius effects on vasopressin cells, R1020
- response to circulating CCK, capsaicin attenuation of, R1162
- rostral ventromedial medulla, EEG/EMG pattern changes, R1496
- serotonergic, response to glucose and insulin administration, R1345
- spinothalamic, vagal afferent inhibition of (monkey), R889
- thermosensitive
- diencephalon, R57
- diencephalon, synaptic blockade effects, R65
- ventrolateral medullary, pressor reflex to muscular contraction and, R1154

Neuropeptides

- anorexia, interleukin 1-induced, R613
- central effects of, R588
- Neuropeptide Y, lateral cerebroventricular injection, stimulation of feeding (sheep), R383
- Newborn: *see also* Infant; Neonate
- hemorrhage, blood volume redistribution after (lamb), R647
- renin secretion, neuronally released norepinephrine and (sheep), R765
- volume expansion, renal nerve role in, awake state (lamb), R1519

Nicardipine, fluid and protein shift and, transcapillary, R174

Nitroglycerin, hemodynamic effects, congestive heart failure, R1481

Nitroprusside, norepinephrine release and, renal sympathetic nerve activity, R229

Nonrecirculating system, halogenated inhalation anesthetics, simple delivery of, R668

Norepinephrine

- α -adrenergic receptor function, species differences, R1110
- ANF infusion effects, fetus (lamb), R580
- anoxia effects, brain and kidney (carp), R10
- attenuated pressor response, third cerebral ventricle lesions, R431
- denervation and, brown fat (hamster), R396
- hepatic, during hemorrhage, R317
- hypertensive response and, after AV3V lesions, R80
- injection, paraventricular nucleus, glycemia and insulinemia control, R1370
- neuronally released, renin secretion and (sheep), R765

plasma

- eating and, renal sympathetic nerve activity and, R1034
- response to hemorrhage, stress immobilization effects, R661
- release, renal sympathetic nerve activity and, R229
- thermal response to, preoptic anterior hypothalamus, R816

Nucleus tractus solitarius

- glutamate coinjection, response to ANF, R405

vasopressin cells and, R1020

Nutrition energetics

- CRF effects, sex dependency, R1417
- orchidectomy, training effects, R550

O

Obesity

- cold-induced changes, brown fat, R292
- decreased ketogenesis and, liver, R822
- insulin-induced hyperphagia, energy expenditure and diet-induced thermogenesis with, R717
- lipogenic inhibitor, serum, R326
- preweaning food intake effects, body composition (baboon), R1128
- responses to short days, regional differences (hamster), R1533
- sympathetic nerve activity and, interscapular brown fat, R1377

 μ -Opioid peptides, modulation, response to stress, R901

Orchidectomy, energy balance in, exercise training effects, R550

Osmoregulation, body fluid compartmentalization and, dehydrated heat exposure (pigeon), R377

Osmotic gradient, transepithelial, ADH effects, bladder (toad), R998

Osteoblasts, function, simulated weightlessness effects, R1103

Osteocalcin, bone calcium and, simulated weightlessness effects, R1103

Osteoporosis, disuse, simulated weightlessness effects, R1103

Ouabain

- energy expenditure and ion channels, brain (turtle, rat), R1354
- neural thermosensitivity and, hypothalamic tissue slices, R21

Ovariectomy, estradiol and, unity of female circadian rhythms, R1241

Ovary, development, fall mating effects (snake), R1548

Overhydration, platelet vasopressin receptors, homologous regulation of, R1400

Ovulation, luteinizing hormone secretion, prolonged exercise effects, R1359

Oxygen

- metabolism, myocardial, calcium-channel blockade in hemorrhagic shock, R1012

saturation

- erythropoiesis, hyperinsulinemia effects (sheep), R1199

measurement, R439

- uptake, vasopressin reduction of, R1

Oxygenation, cerebral, hypoxia and hypocapnia effects (duck), R132

Oxytocin, total translation, neurohypophysis, R109

P

Pacemaker, pyloureteral, R788

PAF: *see* Platelet-activating factor

Parasympathetic activity, airway tone, ventral medulla, R810

Parasympathetic ganglia, excitatory effects of substance P, urinary bladder, R1450

Parasympathetic nervous system, fasting-induced bradycardia, heart rate spectral analysis of (cow), R1303

Paraventricular nucleus

- atrial natriuretic peptide binding sites, lack of vasopressin effects, R168

catecholamine activity in, after hemorrhage, R370

modulation of glycemia and insulinemia, freely moving lean rats, R1370

phase-dependent activation, during hibernation cycle (squirrel), R605

Penis, function, *m*-chlorophenylpiperazine effects, R1441Peptides: *see also* Polypeptidescentral autonomic nervous system-regulating, ACTH-(4-10) through γ -MSH, R681

gastrin, gastric motility and (sheep), R388

regulatory, feeding control, R15

Perinatal period, oxidative metabolism in, cerebral (lamb), R1251

Peristalsis, pyloureteral, R788

Permeability

capillary, response to hemorrhage (trout), R1307

water, apical membrane, ADH effects, bladder (toad), R998

pH, decreasing, embryos and fluids, R542

Pharmacokinetics, selenite metabolism, model, R556

Phase shift, circadian rhythms, simulated jet lag (monkey), R796

Phentolamine, pressor response to feeding and, newborn (lamb), R568

Phenylephrine

 α -adrenergic receptor function, species differences, R1110

infusion, vagal cardiopulmonary baroreflex activation, R1147

norepinephrine release and, renal sympathetic nerve activity, R229

protein phosphorylation, hepatic, R1232

vasopressin effects and, oxygen uptake, sinoaortic denervation, R1

vasopressin release and, sex differences, R1040

Phosphate, high-energy bonds, model, R878

Phosphofructokinase

control of, model, R878

regulation, anoxia survival strategy (turtle), R278

Phosphorus, mobilization of, embryo (alligator), R1541

Photoperiod

short

brown fat lipoprotein lipase and (hamster), R1123

fat pad responses in (hamster), R1533

Phrenic nerve

airway tone, benzodiazepines and, R810

neural activity of, slow rhythms, R804

phase resetting, respiratory rhythm, R271

Picrotoxin, fastigial nucleus pressor response and, R1436

Pindolol, plasma ANP levels and, rest and exercise, R259

Pineal gland, circadian temperature rhythm, suprachiasmatic nucleus influence on (hamster), R210

Placenta: *see also* Fetus; Pregnancy

maternofetal potential difference (pig), R37

restricted growth, glucose metabolism in, pregnancy (sheep), R350

uteroplacental perfusion pressure, renin-angiotensin system role in, R204

- Plasma
level, during gestation, R847
osmolality, vasopressin, sexual dimorphism, R738
- Platelet-activating factor, ischemia-reperfusion, mesenteric, R872
- Platelets, vasopressin, homologous regulation, R1400
- Plethysmography, atropine-induced cutaneous vasodilation, esophageal temperature during exercise and, R1089
- Polycythemia, acute, exercise in the heat, R311
- Polyethylene matrix, implantation, renal decapsulation effects on natriuresis, R44
- Polypeptides: *see also* Peptides
pancreatic, stimulation of feeding (sheep), R383
- Polyuria, vasopressin clearance, DOCA hypertension (pig), R1467
- Posture, head-up tilt, sympathetic renal nerve activity and, awake state, R337
- Potassium
loading, aldosterone and renin inhibition by ANF, R1423
sarcolemmal reticulum, cardiac force and (trout), R599
secretion, renal adaptations, R989
- Potassium ions, L-glutamate transport and, intestinal brush-border membrane vesicles (eel), R180
- Potential difference, maternofetal (pig), R37
- Potentials
evoked, anoxic brain (turtle), R854
slow excitatory synaptic, sympathetic ganglia, urinary bladder, R1450
transmembrane, calcium-channel blockade in hemorrhagic shock, R1012
- Pregnancy: *see also* Fetus; Placenta
blood pressure control during, central angiotensin II in, R1457
estrogen treatment and, vascular pressure-volume relations (guinea pig), R1205
metabolic production of cGMP, plasma level and urinary excretion, R847
osmoregulatory alterations of, hemodynamic factors in, R909
pressor responsiveness, role of maternal factors, R866
reduced uteroplacental perfusion pressure, prostaglandins in hypertension during, R1558
restricted placental growth, glucose metabolism in (sheep), R350
uteroplacental perfusion pressure, renin-angiotensin system role in, R204
- Preoptic area, hypothalamus, neuronal thermosensitivity, ouabain effects, R21
- Pressor response
after anteroventral third ventricular lesions, R80
attenuated, AV3V-lesion and, R431
central effects of somatostatin, R588
during pregnancy, central angiotensin II in, R1457
fastigial nucleus, axons of passage and, R1436
- Pressure: *see also* Blood pressure
arterial
ANF infusion and, fetus (lamb), R580
angiotensin and, brain, structure-function analysis, R1551
central autonomic nervous system-regulating peptides, R681
norepinephrine and, fetus (lamb), R574
rostral ventromedial medulla control of, R635
RVLM neurons and, R265
vasomotor control, respiration changes and, R626
atrial, mean left or right, ANF release and, R896
constant, hemorrhage, response to (trout), R1307
interstitial hydrostatic, renal decapsulation effects, R44
intravascular, head-out water immersion, awake state, R358
mean circulatory filling, estrogen treatment effects (guinea pig), R1205
perfusion
renal, ANP and, R1169
uteroplacental, prostaglandins in hypertension during, R1558
systemic arterial, head-up tilt and, awake state, R337
tracheal, lung inflation reflex influences, R1004
uteroplacental perfusion, renin-angiotensin system role in hypertension, R204
- Pressure-volume relations, vascular, pregnancy and estrogen treatment (guinea pig), R1205
- Procoagulant, factor VIII, acute-phase behavior, R49
- Prolactin, calcitropic actions (eel), R74
- Propranolol
lung liquid secretion during, β -adrenergic block effects, fetal asphyxia (sheep), R705
plasma ANP levels and, rest and exercise, R259
pressor response to feeding and, newborn (lamb), R568
- Prostacyclin
carotid sinus, baroreflex and, R445
synthesis, isoproterenol-induced, modulation by cAMP, heart, R771
- Prostaglandin E, thermal response to, preoptic anterior hypothalamus, R816
- Prostaglandin E₂, fevers, regulated body temperature and, R695
- Prostaglandins
baroreflexes and, during coronary occlusion, R216
carotid sinus, baroreflex and, R445
fevers, regulated body temperature and, R695
hypertension and, reduced uteroplacental perfusion pressure, R1558
mediation, central interleukin 1-elicited hyperinsulinemia, R839
pressor responsiveness, pseudopregnancy and pregnancy, R866
stretch and adrenergic stimulation, cavernous carotid artery, R1335
synthesis, isoproterenol-induced, modulation by cAMP, heart, R771
- Protein
C-reactive, acute-phase behavior, R49
metabolism, during muscle atrophy, R300
- phosphorylation, sepsis and endotoxemia, hepatocytes, R1232
transcapillary shift, nicardipine and atriopeptin effects, R174
turnover, skeletal muscle, suckling, R1141
uncoupling, cold-induced changes, brown fat, R292
- Proton, secretion, kinetic analysis, hepatopancreas (prawn), R484
- Pseudopregnancy
metabolic production of cGMP, plasma level and urinary excretion, R847
pressor responsiveness, role of maternal factors, R866
- Puberty, prolonged exercise effects, female, R1359
- Pulse rate, volume expansion effects, awake state (monkey), R595
- Pump, sodium-potassium, neuronal thermosensitivity, hypothalamus, R21
- Pyrogen, endogenous, acute-phase response to, aging effects, R189
- Pyruvate kinase, depression, anoxia survival strategy (turtle), R278

R

- Radioimmunoassay, vasopressin and ANF, dependent effect of drinking volume on, R762
- Ranatsin, inhibition of feeding, R1219
- Receptors
 α -adrenergic, function, species differences, R1110
 β -adrenergic
ANP levels during rest and exercise, R259
maternofetal potential difference (pig), R37
baroreceptor, denervation, angiotensin II and, R1175
cardiopulmonary
during coronary occlusion, prostaglandins and, R216
volume expansion effects (monkey), R595
chemoreceptors
arterial, sodium and water homeostasis control, R1282
central, ventral medullary surface and Mayer waves, R804
stimulation, sympathetic activity and, R1027
GABA, hypothalamic, stress-induced tachycardia and, R246
glucocorticoid, nephron, species differences, R87
nasal, carbon dioxide, ventilatory frequency and (lizard), R156
tachykinin, substance P excitation, sympathetic ganglia, bladder, R1450
vasopressin, platelet, homologous regulation, R1400
- Reflexes
arterial, sodium and water homeostasis control, R1282
baroreflex
central autonomic nervous system-regulating peptides, R681
glutamate coinjection, response to ANF and, R405
inhibition, prostaglandins and, R216
prostaglandins in carotid sinus, R445

Reflexes (continued)

- sensitivity, volume expansion effects, awake state (monkey), R595
- vagal, bradycardia, somatosensory inhibition of, R829
- vagal cardiopulmonary, activation during phenylephrine infusion, R1147
- cardiovascular, calcitonin gene-related peptide and, awake state, R726
- lung inflation, vascular capacitance in systemic circulation and, R1004
- micturition, electrophysiological study of, R410
- pressor, muscular contraction, ventrolateral medullary neurons and, R1154
- sympathetic
 - during feeding, newborn (lamb), R568
 - gating of, R1027

Rehydration, responses, heat exposure, aging and, R1050

Renal nerve

- activity, during coronary occlusion, prostaglandins and, R216
- renin release, ANF and, R194
- response to volume expansion
 - diabetes, R672
 - newborn, awake state (lamb), R1519
- sensory, activation of, R29
- sympathetic
 - activity, norepinephrine release and, R229
 - during head-up tilt, awake state, R337

Renin

- hypersecretion, vasopressin replacement effects, R1117
 - inhibition by ANF, potassium loading and, R1423
 - plasma activity
 - after hemorrhage, newborn (lamb), R647
 - dependent effect of drinking volume on, R762
 - response, hypotension, inhibition by ANF, R194
 - response to ANF, experimental low-output heart failure, R917
 - secretion, neuronally released norepinephrine and (sheep), R765
- Renin-angiotensin system
- hypertensive response and, after AV3V lesions, R80
 - inhibition by ANF, potassium loading and, R1423
 - interaction, ANP and pressure natriuresis, R1169
 - rapid atrial pacing and, cardiac-denervated dog, R162
 - role in hypertension, during uteroplacental perfusion pressure, R204

Respiration

- changes in vasomotor control, rostral ventrolateral medulla, R626
- periodic breathing, volume control and respiratory timing during, R653
- vascular capacitance and, in systemic circulation, R1004

Respiratory regulation

- carbon dioxide pattern effects, upper airway (lizard), R156
- chemical control (iguana), R1258
- phase resetting, respiratory rhythm, R271

Respiratory timing, breath-by-breath, volume control and, during periodic breathing, R653

Reticuloendothelial system, fibronectin

- synthesis, hepatic, R1406
- Rhabdospincter, urethral responses, sacral stimulation, chronic spine, R284

Rhythms

- circadian
 - female, ovariectomy and estradiol effects, R1241
 - patterns of performance and, simulated jet lag (monkey), R796
 - circadian temperature, suprachiasmatic nucleus influence on (hamster), R210
 - contraction, renal calyceal and pelvic, R788
 - diurnal, prostaglandin fevers, R695
 - respiratory, phase resetting of, R271
 - sympathetic, spinal cord transection and, R1506
 - temperature, bright light effects, R136
- Ribonucleic acid, actin messenger, unweighted soleus muscle, R300
- Rostral ventrolateral medulla
- neurons in, chemical stimulation of caudal VLM effects, R265
 - vasomotor control exerted by, respiration-induced changes, R626
- Rostral ventromedial medulla, subregions of, arterial pressure and regional hemodynamics, R635
- RVLm: see Rostral ventrolateral medulla
- Ryanodine, sarcoplasmic reticulum, cardiac force and (trout), R599

S

- Sacrum, stimulation, chronic spine, urethral responses to, R284
 - Saline, infusion, circulating blood volume, R127
 - Salt, diet, 24-h blood pressure recordings in, R1225
 - Sarcoplasmic reticulum
 - function, sepsis and endotoxin shock effects, R1265
 - myocardial force and (trout), R599
 - Satiety
 - control, hypothalamic energy factor and, R224
 - feeding control, CCK-8 and somatostatin-14 interactions, R15
 - food intake
 - CCK-8 effects, R946
 - stimulation by L364718, R1512
 - gastric emptying and, endogenous CCK effects, fasting, R1462
 - level, hypophagic and hyperphagic body weight recovery, R1322
 - stimulation of feeding, neuropeptide Y and (sheep), R383
 - Schistosoma mansoni, egg production, HMG-CoA reductase in, R618
 - Selenite, metabolism, model, R556
 - Selenium, metabolism, model, R556
 - Sepsis
 - hepatocytes of, protein phosphorylation in, R1232
 - myocardial function in, R1265
 - Serotonin, MCPP effects and, penis and bladder function, R1441
- Sex differences
- energy balance, CRF and, R1417
 - vasopressin release, central adrenergic control of, R1040

Sex hormones

- CRF effects, energy balance, R1417
- ovariectomy and, unity of female circadian rhythms, R1241

Sexual dimorphism

- thermoregulation and, R700
- vasopressin, osmotic control of, R738
- vasopressin release, central adrenergic control of, R1040

Shock

- endotoxic, myocardial function in, R1265
- hemorrhagic, calcium-channel blockade in, R1012
- ischemia-reperfusion-induced, PAF in, R872

Sleep

- interleukin 1-induced, corticotropin-releasing factor effects, R528
- rapid-eye-movement, bright light effects on temperature rhythm, R136
- suprachiasmatic nucleus activation, during hibernation cycle (squirrel), R605

Sodium

- appetite, thirst and (cow), R1212
- cotransport, integumental, marine bivalves, R473
- dependency, amino acid transport, intestine (eel), R506
- excretion
 - ANP and pressure natriuresis, R1169
 - urinary, congestive heart failure, R641
- homeostasis, arterial chemoreceptor and reflex control of, R1282
- influx, kinetic analysis, hepatopancreas (prawn), R484
- retention
 - chronic caval constriction and, R1057
 - cirrhosis and, R1068
- Sodium-coupled transport, energetics of, invertebrate epithelia, R461
- Sodium-hydrogen antiporter, electrogenic, kinetic analysis, hepatopancreas (prawn), R484
- Sodium ions, dynamic changes in plasma membrane area and (turtle), R973
- Sodium-potassium-ATPase, brain biochemistry, species differences (rat, turtle), R1083
- Sodium-potassium pump: see Pump
- Sodium-proton exchange, electrogenic, membrane vesicles, gill (crab), R924
- Soleus muscle, atrophy, protein metabolism during, R300
- Solitary tract, nucleus, area postrema lesion, taste aversion and, R1075
- Somatostatin, central effects, R588
- Somatostatin-14, CCK interaction, feeding control, R15
- Species differences
 - α -adrenergic receptor function, regulation of, R1110
 - aldosterone binding sites, nephron (*Xenopus*, rabbit), R87
 - biochemical comparison, brain anoxia (rat, turtle), R1083
- Spinal cord
 - chronic injury, sacral stimulation, urethral responses to, R284
 - transection, sympathetic discharge and, R1506
- Spinothalamic cells, cardiac and abdominal vagal afferent inhibition of (monkey), R889

Splanchnic nerve, activity, central effects of somatostatin, R588
 Starvation: see Fasting
 Steroids, integral feeding effects, control of ACTH, R427
 Stomach, motility, gastrin peptide effects (sheep), R388
 Streptozotocin
 diabetes, ANF release and atrial granularity relations, R932
 diabetes induced by, renal response to volume expansion and, R672
 Stress
 cardiovascular and sympathoadrenal response to, μ -opioid peptide modulation of, R901
 immobilization, adrenal hormone response to hemorrhage and, R661
 Structure-activity relations, CCK-8 effects, food intake, R946
 Structure-function analysis, pressor action, angiotensin control of, brain, R1551
 Substance P, excitatory effect, parasympathetic ganglia, urinary bladder, R1450
 Suckling, pressor responses, feeding (lamb), R568
 Sulfate, inorganic, renal excretion (teleost), R511
 Sulfobromophthalein, infusion, hepatobiliary function, R456
 Suprachiasmatic nucleus
 daily torpor and (hamster), R210
 phase-dependent activation, during hibernation cycle (squirrel), R605
 Supraoptic nucleus
 atrial natriuretic peptide binding sites, lack of vasopressin effects, R168
 excitation, A1 cell group mediation of, vasopressin cells, R1020
 Sweating
 heat exposure, dehydration and rehydration during, aging effects, R1050
 thermoregulatory, control during exercise, heat and, R311
 Sympathetic activity, chemoreceptor stimulation on, dependence on respiratory phase, R1027
 Sympathetic discharge, rhythms, spinal cord transection and, R1506
 Sympathetic nerve activity
 2-deoxy-D-glucose effects, brown fat, R1377
 2-deoxy-D-glucose effects, lateral hypothalamic injection, R1386
 cardiac, chemoreceptor effects, R1027
 carotid sinus, baroreflex and, R445
 central interleukin 1-elicited hyperinsulinemia, prostaglandin mediation of, R839
 hepatic, hemorrhagic hypotension, catecholamines and glucose in, R317
 renal
 during head-up tilt, awake state, R337
 plasma catecholamines and, during eating, R1034
 traffic, microprocessor-based analysis, R958
 Sympathetic nervous system
 activation, hemodynamic effects, R29
 control, rostral ventromedial medulla, R635
 renal nerve activity, norepinephrine release and, R229

rostral ventrolateral medulla, vasomotor control, respiration changes and, R626
 stress-induced tachycardia, hypothalamic GABA receptors and, R246
 Sympathetic outflow, response to stress, μ -opioid peptide modulation of, R901
 Sympathoinhibition, central effects of somatostatin, R588

T

Tachycardia, stress-induced, hypothalamic GABA receptors and, R246
 Temperature
 ambient, food costs and, R1328
 regulation
 adaptation to fasting and, chick (penguin), R744
 diencephalon, R57
 diencephalon, synaptic blockade effects, R65
 ouabain effects, R21
 rhythm, bright light effects, R136
 simulated jet lag, circadian rhythms and patterns of performance (monkey), R796
 thermoregulatory sweating, exercise in the heat, R311
 ventilation and, chemical control (iguana), R1258
 Temperature, body
 brain, corticotropin-releasing factor effects, R528
 circadian rhythm, suprachiasmatic nucleus influence on (hamster), R210
 esophagus, during exercise, cutaneous vasodilation and, R1089
 increased, laboratory and free-ranging animals (chuckwallas), R150
 norepinephrine effects, preoptic anterior hypothalamus, R816
 regulated, change in, prostaglandin fevers, R695
 skin, rostral ventrolateral medulla activity and, R1496
 suprachiasmatic nucleus activation, during hibernation cycle (squirrel), R605
 Testosterone
 energy balance and, exercise training effects, R550
 seasonal responses, timing of (hamster), R142
 Tetraethylammonium, transport, urinary bladder (crab), R501
 Tetrodotoxin, energy expenditure and ion channels, brain (turtle, rat), R1354
 Thermololition, hemodynamics of ANP and, renal hypertension, R365
 Thermogenesis
 aging and gender effects, R700
 brown fat
 norepinephrine and denervation effects (hamster), R396
 GDP binding and, hibernation and arousal (squirrel), R536
 diet-induced, insulin-induced hyperphagia and, R717
 nonshivering
 adaptation to fasting and, chick (penguin), R744
 brown fat lipoprotein lipase and (hamster), R1123

surgical removal of brown fat, compensation by other depots, R253
 whole-body, insulin and, R717
 Thermoregulation
 aging and gender effects, R700
 dehydration and rehydration, aging effects, R1050
 expired air temperature, diving (seal), R306
 food costs and, behavior patterns, R1328
 heat exposure and, dehydrated (pigeon), R377
 norepinephrine effects, preoptic anterior hypothalamus, R816
 rostral ventrolateral medulla neuron activity, EEG/EMG pattern changes, R1496
 sweating, control during exercise, heat and, R311
 Thermosensitivity, neural, hypothalamic, ouabain effects, R21
 Thirst: see Drinking
 Tissue, peripheral, TNF effects on glucose uptake, R1182
 TNF: see Tumor necrosis factor
 Torpor
 control, seasonal timer (hamster), R142
 suprachiasmatic nucleus influence (hamster), R210
 Trace elements, metabolism, model, R556
 Tumor necrosis factor
 after exercise, skeletal muscle, R451
 glucose uptake and, peripheral tissues, R1182

U

Urethan, anesthesia, EEG/EMG pattern changes, R1496
 Urethra, responses, sacral stimulation, chronic spine, R284
 Urinary bladder
 anion and cation transport (crab), R501
 apical membrane response, ADH (toad), R998
 contractions, micturition and, fetus (sheep), R1526
 function, *m*-chlorophenylpiperazine effects, R1441
 ion transport, dynamic changes in plasma membrane area and (turtle), R973
 longitudinal and transverse strips, spontaneous contractions, R781
 micturition reflexes, electrophysiology, R410
 neurogenic, sacral stimulation and, chronic spine, R284
 parasympathetic ganglia, excitatory effects of substance P, R1450
 Urinary excretion, cGMP production and, during gestation, R847
 Urine
 bladder contractions and micturition, fetus (sheep), R1526
 strong-ion excretion, exercise effects, R102
 transport, pyeloureteral pacemaker, R788
 Uterus
 fluid composition, changes during shell formation (chicken), R732
 uteroplacental perfusion pressure, renin-angiotensin system role in, R204

- Vagal afferents**
 cardiac and abdominal, inhibition of spinohthalamic cells (monkey), R889
 lung inflation reflexes, vascular capacitance and, R1004
- Vagina, opening, prolonged exercise effects, R1359**
- Vagotomy, brain and plasma ANP, during hemorrhage, R1393**
- Vagus nerve**
 activity, during coronary occlusion, prostaglandins and, R216
 response to CCK, hindbrain, R1162
- N-Vanillylnonanamide, vasopressin-mediated recovery and, blood pressure, R1429**
- Vasodilation**
 cutaneous, atropine-induced, esophageal temperature during exercise and, R1089
 facial nerve, cerebral blood flow and glucose use with, R517
- Vasopressin: see also Antidiuretic hormone**
 ANF infusion effects, fetus (lamb), R580
 attenuated pressor response, third cerebral ventricle lesions, R431
 blood pressure recovery mediated by, synthetic capsaicin effects, R1429
 blood volume distribution after hemorrhage, newborn (lamb), R647
 catecholamine activity after hemorrhage, paraventricular hypothalamus, R370
 dependent effect of drinking volume on, R762
 hormonal response and, repeated small hemorrhages, R118
 hypertensive response and, after AV3V lesions, R80
 inhibition, renin response to hypotension, R194
 lack of, ANP binding sites and, brain, R168
 lysine, urinary clearance, DOCA hypertension and (pig), R1467
 osmoregulatory alterations of pregnancy, hemodynamic factors in, R909

- osmotic control, gender-related differences, R738
 oxygen uptake and, sinoaortic denervation, R1
 protein phosphorylation, hepatic, R1232
 rapid atrial pacing and, cardiac-denervated dog, R162
 receptors: see Receptors
- release**
 central adrenergic control of, sex differences, R1040
 central effects of somatostatin, R588
 replacement, renin hypersecretion and, R1117
- responses**
 acidemia stimulation of, fetus (sheep), R344
 baroreceptor denervation, angiotensin II infusion effects, R1175
 hypertonic saline, cortisol effects, fetus (sheep), R861
 total translation, neurohypophysis, R109
- Vasopressin-secreting cells, supraoptic, A1 cell group mediation of, R1020**
- Vasovagal syncope, response to stress, μ -opioid peptide modulation of, R901**
- Vena cava, chronic constriction, renal responses to ANF, R1057**
- Ventilation, temperature and, chemical control (iguana), R1258**
- Ventral medulla**
 airway dilation, benzodiazepines and, R810
 role, generation of Mayer waves, R804
- Ventrolateral medulla, neurons, muscular contraction and, R1154**
- Veratridine, renin secretion and, fetus, newborn, and adult (sheep), R765**
- VLM: see Ventrolateral medulla**
- Voiding, bladder contractions and, fetus (sheep), R1526**
- Volume**
 blood
 ANF infusion effects, fetus (lamb), R580
 circulating, ANP effects, R127
 expansion, ANF release and, R896
 measurement, R439
- redistribution, after hemorrhage, newborn (lamb), R647
 response to norepinephrine, fetus (lamb), R574
 cell, membrane dynamics (snake), R982
 constant, hemorrhage, response to (trout), R1307
 control, during periodic breathing, R653
- expansion**
 acute, renal decapsulation effects, R44
 baroreflex sensitivity and, awake state (monkey), R595
 reduced renal response to, diabetes, R672
 renal nerve response to, newborn, awake state (lamb), R1519
- extravascular fluid, dehydrated heat-exposure, R377**
- plasma, atriopeptin, calcium blockade and, R174**
- regulation, pregnancy, hemodynamic factors in, R909**
- tidal, vasomotor control, respiration changes and, R626**
- unstressed, head-out water immersion, R358**

W

- Water**
 heavy, methane production and (sheep), R1488
 homeostasis, arterial chemoreceptor and reflex control of, R1282
- intake**
 glucose concentration and, R1474
 neuropeptide Y effects (sheep), R383
- Weight**
 body
 control by seasonal timer (hamster), R142
 eating and hoarding as a function of, R952
 regulation, energy metabolism in brain and, R1322
 responses to short days, regional differences (hamster), R1533
- Weightlessness, simulated, osteocalcin and bone calcium with, R1103**
